Chapter 1 - Why We Will Go Through Suffering

This book is a very spiritual book about how to overcome suffering. I wanted to write this book to really explain something very important about Humanity & Suffering. This Book is about understanding how to overcome suffering within your life because it is very important to understand that Suffering is Inevitable and as human beings, we will go through suffering within our lives because we are all on a spiritual journey.

Right now, within the world & society, there is serious suffering within Humanity which is destroying people's lives and Humanity has never been able to understand why human beings are suffering so much within their lives. This is a very serious ongoing concern with life itself that needs to be resolved in a spiritual way. I want you to understand readers that Suffering is everywhere within the world & society today and this will continue to go on unless we find a way to overcome suffering. This is a very spiritual thing and must not be taken lightly at all because when you look within society and humanity millions and billions of people are going through serious whether they are conscious of the suffering or not conscious of the suffering.

Suffering is a thing that we all experience in some part of our lives which can really destroy our lives if we don't find a way to overcome the suffering.

I want the reader to understand that overcoming suffering is spiritual first and we must take a spiritual approach to overcome suffering. Without the spiritual approach, we may never find freedom or liberation from our personal suffering.

I want you to understand reader that first of all suffering is personal for each human being because as a human being living life every day you are going through different life experiences while you're living on earth that is why the first thing to understand before anything else is that suffering is personal. This may sound very different from what people discuss in conversations but right now readers I want you to look at your life and see why am I suffering so much and not being able to deal with or process what I have experienced.

Suffering is personal and this is the first thing to realize in life because if you haven't personally suffered something hard or devastating, terrible, or challenging you will not feel the **PAIN** of how it feels to suffer and this is not something that I want the reader to not understand because this will happen in your life and Pain is Inevitable.

I am not your guru or spiritual teacher readers I just want you to understand that Suffering is part of life and whether you choose to overcome it or not is really down to every human being (Individually).

I want you to understand readers that you will go through some suffering if you want to become the person you want to be. This is spiritual truth and spiritual facts that many people will never learn or understand.

This spiritual book is a guide of spiritual education and spiritual inspiration for the few human beings who want to overcome suffering.

So now we can begin to answer these questions about Suffering

Why We Will Go Through Suffering

This is a very powerful question and takes lots of observation to find the truth answer to this question. First of all, we need to think about human beings and the daily life that we are all living at the moment. Human beings are trying to find there way through the world through Family, Friends, Relationships, Leisure, Work, Business, Career, Volunteering, etc.

Every day people are living life that they feel is best for them. One of the simple truths is we don't have a main answer to why we go through suffering but as human beings, we know that we are going to suffer.

This can become overwhelming for human beings everywhere around the world because we sometimes don't know what we are going to suffer in life and as we live our lives day to day, we go through life experiences.

I want you to understand that Suffering is part of life and there are no magical answers to resolve your ongoing suffering.

So, if we don't know what we going to suffer in life then the question is how we manage day-to-day living. **(LIFE) Daily Life.**

Now this is a very serious question because spiritual leaders & spiritual teachers think they have the answers to this but NO ONE HAS THE ANSWER BUT **YOURSELF**.

Only you can answer the question because as a Human being you would know what you have suffered in your life.

Because this becomes a very simple truth the answers are found within yourself in your Daily Living.

If your life is not the way you want it to be because you're going through suffering & pain then we have to learn this.

WHAT ARE YOU GOING TO DO ABOUT THE SUFFERING YOU'RE GOING THROUGH?

This becomes a very hard thing to learn because we all suffer in life.

So, what is the answer – find it within yourself – find it within your suffering.

Why We Will Go Through Suffering – You Will Need to Find it Out Yourself

There is something that can help guide you to this very important question

Choices & Decisions

I want you to understand readers that your choices & decisions make up your life experiences, every day you are making choices & decisions and this is a simple truth that is very hard to learn. Your choices & decisions make up your whole life.

So why we will go through suffering can be explained very simple

You are making choices & decisions that will make you suffer and go through pain

I don't want to get complexed about this simple truth and spiritual facts

If you want to change your life from Suffering – Pain – Adversity you would need to learn to take difference choices & decisions within your life.

How this works is that we are always thinking as human beings – then our thinking turns into our choices & decisions – our Actions are based on the choices & decisions we make – then we live our life learning something important or making massive mistakes.

THINK - CHOICE – DECISION – ACTIONS

There is an important quote that spiritual teachings talk about – You cannot change unless you change your THINKING.

If your life is not how you want it to be, then you need to change your thinking first.

This is spiritual truth which is hard to learn but very true

So, to answer the question again Why We Will Go Through Suffering – Because we are thinking about Suffering – Pain – Adversity.

Everything in your mind starts with your thinking first because in order to take action you must Think of the

actions you want to do – Make the choices & decisions and then act on your thinking.

This is a very serious thing to learn but LEARNT IT NOW.

We all will go through suffering but someone people choose to overcome suffering and some people don't.

Everything Spiritual comes to Choices & Decisions.

- **Make the right choices & decisions and your life will not end up in your suffering – going through adversity & pain.**
- **Make the wrong choices & decisions and you will suffer all your life without resolving the suffering.**

I want you to understand readers it is really up to you what you want

Do you want to overcome suffering or not?

Do you want to end suffering - pain – and adversity or not

Millions & Billions of people in society & the world will always live in suffering because they have changed their thinking.

This spiritual book starts with you – Will you learn how to overcome your suffering or live your life never being able to overcome suffering?

Just remember you cannot change people and if you do suffer then you will have to overcome it.

Spiritual teachings help to find simple truth in life

We will never know why people suffer but you can make a choice & decision to overcome YOUR SUFFERING.

Chapter 2 – Suffering is Inevitable

This is a very important chapter to write about Suffering but I want the readers to understand that Suffering is inevitable.

Life is a spiritual journey when you go through life experiences and learned things along the way. Sometimes in life, we go through serious life challenges and life experiences that can make us become an Inspiration or going through severe Suffering.

It is very hard to understand that suffering is inevitable and you will go through something in life that will make you or **destroy you**.

What we need to understand is how we overcome the suffering we are going through in life because this can become the most important thing to learn.

If suffering is inevitable is there any way to find **spiritual freedom** and **spiritual liberation**?

This is a very important question and it takes a spiritual mind to find the answers.

Remember I am no guru or spiritual teacher this is just a guide to How to Overcome Suffering.

I will list some of the suffering we will go through as human beings

- Losing Family Members
- Losing Friends

- Losing Employment & Jobs
- Losing Careers & Business
- Losing Money
- Losing Yourself
- Losing Home
- Losing Possessions
- Losing Cars & Motorbikes
- Losing Relationship (Break Up & Divorce)
- Losing Education (College & University)
- Losing Qualification & Degree

There is a massive list that will go on and on about what we suffer but this is part of life.

Some people have lost and suffered serious things in their lives but have embraced the suffering and moved forward in their lives but some people have lost and suffer but stay in the situations & circumstances without moving forward.

Yes, Suffering is Inevitable but as Human Beings we can choose what we do about the suffering we have faced in life.

This will really be involved in **Think – Choice – Decision-Action.**

When you go through Suffering – Pain – Adversity within your life what it really means is Paying the Price.

Because suffering is inevitable you can choose the **PAY THE PRICE NOW** or **PAY THE PRICE LATER.**

Suffering is part of Spiritual Change.

If You have suffered, how would you know how to deal with Suffering – Pain – Adversity

I have always encouraged people to **PAY THE PRICE NOW** and **Not Later** because the Suffering will be an inspiration in many different ways.

Please understand readers Suffering is Inevitable but we can choose to PAY THE PRICE Now from what we have suffered and move forward in life or We PAY THE PRICE Later and always live with Suffering – Pain – Adversity.

I want to encourage you readers that suffering is painful & hurtful but there is a Spiritual Life outside the things you have suffered in your life but very rarely that people find this.

YOU WILL SUFFER TO BECOME WHAT YOU WANT TO BE

EMBRACE THE SUFFERING AND MOVE FORWARD

Suffering is the key to Spiritual Freedom & Spiritual Liberation

PAY THE PRICE NOW – NOT LATER

Suffering is Inevitable – Learn from what you suffered

Chapter 4 - How to Develop a Spiritual Practice

In this chapter we are going to talk about how to develop a Spiritual Practice that can help you overcome suffering – pain – and adversity. Developing a Spiritual Practice has been a very important thing in religion & spirituality, we need to find a way to connect to higher powers, and whatever we believe may be whether we are Christians, Muslims, Hindus, Buddhists, or just a Spiritual Person it is important to have a spiritual practice. I believe when we connect to a higher power or God, we find ways of healing our suffering – pain – adversity – trauma of what we have been through as human beings because we focus on something that is greater than ourselves. Jesus Christ & Buddha were two spiritual human beings who were talking about Spiritual salvation the end of Suffering trying to get Humanity to connect with our creator (God) and build a relationship with our heavenly father. Jesus Christ & Buddha knew that Humanity would need to go through a spiritual change and spiritual transformation in order to end suffering and give humanity salvation once and for all. Jesus Christ gave up his life and died on the cross to give Humanity true spiritual freedom & spiritual salvation.

1 Peter 3:18 - For Christ also suffered once for sins, the righteous for the unrighteous, that he might bring us to God, being put to death in the flesh but made alive in the spirit,

Romans 5:8 - But God shows his love for us in that while we were still sinners, Christ died for us.

John 14:6 - Jesus said to him, “I am the way, and the truth, and the life. No one comes to the father except through me.

John 11:25 - Jesus said to her, “I am the resurrection and the life. Whoever believes in me, though he dies, yet shall he live,

1 John 3:16 - By this, we know love, that he laid down his life for us, and we ought to lay down our lives for the brothers.

John 3:16 - “For God so loved the world, that he gave his only Son, that whoever believes in him should not perish but have eternal life.

Jesus Christ knew that God wanted him to save Humanity and restore the relationship between Humanity & God.

What this means is that God wants you to build a relationship with him and live your life free from suffering – pain – adversity. Chapter 6 - The Ending of Suffering

This is the chapter in which I will try to explain the most important thing and the true reason why I have written this book.

The Ending of Suffering

To explain this very serious thing in life when it comes to The Ending of Suffering there is a lot to discuss in-depth and this is not very simple to explain. I want to encourage the reader before we begin that you must overcome suffering to understand this very spiritual thing.

First, I want you to understand that Suffering is Inevitable and each human being will go through suffering within their life. There is nothing spiritual about this just a simple fact of daily life.

When we look into society and the world of Billions of people living on earth, we see that Humanity is suffering profoundly and deeply and there are no answers to why Humanity is suffering. This is just part of daily life.

If we understand that suffering is part of life and that we are going to suffer. Then we need to observe and understand how to overcome suffering.

This is a spiritual observation that needs careful insight and understanding.

Overcoming suffering is something that no one can teach you because each human being is an individual first.

You can not learn how to overcome suffering from someone else because that is not the way to learn this.

So, the spiritual question is **How to Overcome suffering.**

I have said at the very beginning of this book that it is just a guide (I am not telling you what to do)

To understand The Ending of Suffering is to learn that you must discover this ***yourself***.

No one can tell you how to end your own personal suffering as a human being.

That is why the book is a guide and not a Philosophy

I can not tell you what Ending of Suffering means for you because like I said we are all individually first.

The Ending of Suffering for me would be completely different from you it would not be the same.

Jesus Christ & Buddha have not said much about The Ending of Suffering

Matthew 10:39 – KJV - 39 He that findeth his life shall lose it: and he that loseth his life for my sake shall find it.

- *The spiritual question that I want to say to the readers*
- *What does the Ending of Suffering mean to me*
- *How can I overcome my Suffering in life*
- *What am I called to do when I am on Earth*
- *Where are my intuitions, feelings, emotions, and thoughts trying to tell me*

- *Spiritually who do I Need to become*

I am not going to give you the answers to The End of Suffering because that would not be correct or right to do so.

What I will do is spiritually guide you on your spiritual journey

- Spiritual Change -

I will say that Spiritual Change will answer the spiritual question to you about The Ending of Suffering. That is something I can not teach you.

Please understand that No one can teach you this because you need to discover

I want you to understand readers that Spiritual Change means The Ending of Suffering. No one can teach you want Spiritual Change is because it is Spiritual to Individual.

Without The Ending of Suffering, you will Suffer

The Ending of Suffering is Spiritual Freedom & Spiritual Liberation

Chapter 7 - Spiritual Change - Spiritual Freedom – Spiritual Liberation

I want to write this final chapter to explain Spiritual Change – Spiritual Freedom – Spiritual Liberation.

I want you to understand the important of Spiritual Change.

I want you to understand readers before anything changes within your life, you will need to go through a Spiritual Change.

You can not find Spiritual Freedom & Spiritual Liberation without Spiritual Change.

The most important thing to learn is Spiritual Change because Spiritual Change leads to Spiritual Freedom & Spiritual Liberation.

I can not teach you how to Spiritual Change as a human being. No. Like I said this book is a Guide.

How To Overcome Suffering is really focused on **THINK - CHOICE - DECISION - ACTIONS.**

My final message in this Chapter is if you want to Overcome Suffering you will need to make Choices & Decisions for Spiritual Change.

You can not find Spiritual Freedom & Spiritual Liberation within society or the world it will never be found there.

You find Spiritual Freedom & Spiritual Liberation once your Spiritual Change

SPIRITUAL CHANGE IS NOW

Change Is Now

Think – Choice – Decision – Actions

Psychological Spiritual Change

Spiritual Revolution

Chapter 8 – Thank You

I would like to say thank you to Paul Dorrington (Lead Employment Specialist), Karen Meechan (Clinical Psychology), Dag Heward Mills (Pastor, Evangelist, Teacher), Jiddu Krishnamurti (Philosopher, Spiritual Teacher), Jesus Christ & God for helping to write this amazing book and for helping me to overcome my adversity & suffering.

Paul Dorrington (Lead Employment Specialist) – Paul Dorrington helped and supported me when I was 24 – 25 years from homelessness and mental health crisis to get back into Paid Employment in the Mental Health Industry. Paul Dorrington is my Spiritual Hero and I value and respect all of the support and help Paul Dorrington has given me through my years. Christopher Liam Rose & Paul Dorrington's professional relationship has been for 10 years since 2014 – Present. Christopher Liam Rose owes his whole life to Paul Dorrington for showing him mental health recovery and hope, faith, control, and opportunity. Christopher Liam Rose has now worked with Paul Dorrington as an Employment Specialist in SWLSTG at North Kingston Team but will slowly be moving on to a Peer Support Coordinator role at SWLSTG (Sutton Jubilee Health Centre). Christopher Liam Rose's dream was to work with Paul Dorrington in mental health recovery and IPS Employment Specialist Support. Since Christopher Liam Rose has worked with Paul

Dorrington in SWLSTG as an Employment Specialist he has received 2 Awards for excellent IPS Employment Specialist work.

Karen Meechan (Clinical Psychologist) – Karen Meechan helped and supported Christopher Liam Rose in 2014 in Psychology and Counselling Therapy when Christopher Liam Rose went through homelessness and a mental health crisis. Karen Meechan is the main reason why Christopher Liam Rose has developed persistence, resilience, and coping strategies to manage his mental health conditions and learning difficulties of Schizophrenia, Psychosis, Depression, Diabetes, and Dyslexia. Karen is my Spiritual Hero and has helped me to recover from my mental health conditions and learning difficulties. Karen taught Christopher Liam Rose about dealing with Past Trauma, setbacks, overcoming adversity, and life challenges. Karen was the first person that Christopher Liam Rose opened up about his past and trauma. On 30/09/2024 Christopher Liam Rose lost his home and all of his possessions in a fire that burned away everything that Christopher Liam Rose owned including possessions and music equipment. Karen helped Christopher Liam Rose deal with the fire and past trauma he experienced and showed him the light in helping other people and giving back. Karen told Christopher Liam Rose to write in journals to process his life, feelings, emotions, dreams, and desires. Christopher Liam Rose has been writing in journals since 2015 – Present and how many journals of his past

life and experiences within the journals. Christopher Liam Rose & Karen Meechan's professional relationship was from 2014 – 2020 when Karen Meechan supported Christopher Liam Rose in Psychological Therapy 2 times 1) Psychology & Counselling in 2014 2) Psychology & Counselling in 2018. Christopher Liam Rose has experienced serious life setbacks and challenges which Karen Meechan helped me to deal with. Because of Karen Meechan, I can live a normal life and I have recovered from mental health illness.

Dag Heward Mills (Teacher, Pastor, Evangelist) – Dag Heward Mills has been my spiritual Christian father and leader in my Christianity & Spirituality. I have been attending Dag Heward Mills church called Lighthouse Chapel International #LCI 2014 – present. Christopher Liam Rose respects and honors Dag Heward Mills for all of his teachings, sermons, videos, and audio that he has been learning from since 2014. Dag Heward Mills is one of the main reasons why Christopher Liam Rose has stayed in faith, Christianity, and Spirituality. I have become an Evangelist and Teacher in Christianity and Faith based on Dag Heward Mill's Teachings. I owe my Christian walk with God to Dag Heward Mills and I am very grateful to be a part of Dag Heward Mills church and congregation.

Jiddu Krishnamurti (Spiritual Teacher, Philosopher) – Jiddu Krishnamurti is a very special spiritual teacher and philosopher that helped me with Spirituality and faith. I discovered Jiddu Krishnamurti's Videos Series –

A Wholly Different Way of Living with Dr Allan San Diego 1974 on YouTube when I was going through a mental health crisis and breaking up with my ex-partner. Because I watched Jiddu Krishnamurti videos talking about Spirituality, Meditation, Mindfulness, God, Faith, and Religion I started to become a Spiritual person and was practicing meditation and mindfulness. Jiddu Krishnamurti is the main reason why I have changed all of my life spiritually and become a very spiritual person. Jiddu Krishnamurti helped me to find Spirituality and God and I would have not been able to achieve Spiritually Freedom from the known without Jiddu Krishnamurti's teachings. I have a spiritual aura and spiritual presence because of the teachings of Jiddu Krishnamurti who is my spiritual teacher and spiritual philosopher.

Jesus Christ & God – This has become the most important thing in my life to learn and understand Jesus Christ & God. My faith, Spirituality, and Christianity are very important to me, and being with Jesus Christ & God makes me Spiritual. Being a Christian and learning about Spirituality and Christianity has become everything to me and more. My love and devotion for Jesus Christ and God is everything and that is why I can be an Evangelist and Teacher in Faith, Spirituality, and Christianity.

My spiritual hero is very important to me in my life story and journey, and they are all the reasons why I have become a spiritual person.

I want you to understand dear readers that you can become spiritual and live a meaningful productive life. My life has been very difficult and challenging but I would change any of my life experiences because they made me who I am today. The only things I would change about my life are the things I did to hurt other people like --ex-partners, family, and childhood abuse.

My life is not perfect by any means, but I have learned very important life lessons that I want to share in my life story. Please remember readers I am only a human being, and I am not perfect but I want you to feel inspired and hopeful about your future, and by reading my books you will find faith, Spirituality, and Christianity and become the person you want to be.
